

Brigand Arms is a firearms accessories company that specializes in lightweight carbon fiber parts for AR-15 rifles. We are located in the Lakeview Area of Downtown Birmingham, Alabama.

Manufacturing Technician – Brigand Arms

We are looking for a technician who has a detailed and process oriented personality. This is a full time position paid hourly. This position will report to our Director of Operations, Lisa Whitman.

The day to day work of this position is hands-on craftsmanship. Cleaning, prepping, and gluing carbon fiber and aluminum parts is the bulk of the daily work. You will also be tasked with monitoring a carbon weaving machine. Detailed training will be provided.

Your Responsibilities

Your contributions to this team will include

- Monitoring carbon fiber weaving machines
- Cleaning carbon fiber parts in an ultrasonic cleaner
- Prepping and cleaning aluminum parts to bond to the carbon fiber components
- Bonding Carbon Fiber and aluminum parts with precision
- Electronic device assembly
- Packaging orders for shipment

Requirements

- Detail-oriented nature
- Enthusiasm for getting the job done right
- Time management skills
- Must be willing to sign a confidentiality agreement

Nice to Have

- Textiles or composites experience (sewing, weaving, carbon fiber, fiber glass, etc.)
- Hands-on work experience in manufacturing, automotive, or other industries

Details

- Full time: 30-40 hours per week
- \$16.00/ hour starting pay
- Flexible work hours and time off
